

## **4 Things You Can Do to Work for Water Justice for All!**

- 1) Sign up for action alerts at <http://www.cwfnc.org/water-justice>. We'll let you know when there's an opportunity to speak up in favor of safe, affordable water for all!
- 2) Become a door-to-door outreach volunteer. Contact Katie Hicks to get started! [Katie@cwfnc.org](mailto:Katie@cwfnc.org), 828-251-1291.
- 3) Learn more about where YOUR drinking water comes from. If it's from a city or county, ask them what they're doing to invest in the future of the public water system and let them know you oppose privatization.
- 4) Be a water watchdog! Help CWFNC keep an eye out for possible water injustices in your part of NC (rate hikes, water contamination, privatization of public water supplies).
