

Four Things You Can Do To Work for Water Justice for All!

- (1) Sign up for action alerts at www.cwfnc.org/water-justice. We'll let you know when there's an opportunity to speak up in favor of safe, affordable water for all!
- (2) Become a door-to-door outreach volunteer. Contact Katie Hicks to get started!
Katie@cwfn.org, 828-251-1291.
- (3) Learn more about where YOUR drinking water comes from. If it's from a city or county, ask them what they're doing to invest in the future of the public water system and let them know you oppose privatization.
- (4) Be a water watchdog! Help CWFNC keep an eye out for possible water injustices in your part of NC (rate hikes, water contamination, privatization of public water supplies).
